

## PTFE bushes for pole match fishing

The little things helping you land the big catch

### Internal and external bushes

- Protect rods from damage by pole elastic
- Save wear and tear on the elastic
- Ensure good elastic flow from the pole tip, enabling smooth movement when playing fish
- Manufactured in a range of sizes to suit different diameter elastic
- Internal, external, bullnosed, chamfered, straight - we manufacture to your design
- Side puller designs also machined to your design
- Available in pure white or coloured PTFE
- Manufactured in the UK
