

### Product information

## Robaflow<sup>®</sup> C

#### Description

Robaflow C is a special material composition used for headbox sheets in paper industry. It consists of Carbon Fiber & Epoxy Resin

| Operation Environment | Temperature | Interval               | pH value            |
|-----------------------|-------------|------------------------|---------------------|
| Continuous Exposure   | up to 80°C  | 24 h/day - 7 days/week | 5-10                |
| Cleaning Exposure     | up to 90°C  | 2-4h every 4-6 weeks   | either 3-5 or 11-13 |

#### Cleaning information

The material is chemically resistant allowing chemical cleaning (boil-out) without removing. Under condition that above defined parameters for cleaning exposure are not exceeded.

#### Products

Robaflow<sup>®</sup> C

The data given are standard values which are based on our experience and previous studies. These values are influenced by the design, processing conditions and environmental influences out of our control. The sustainability of the material for a given application is the responsibility of the user. Typing and printing errors reserved.
